

FLORENCE MELLY COMMUNITY PRIMARY SCHOOL HOME LEARNING CHALLENGES!

KEEPING YOU ENTERTAINED WHILE
OUR SCHOOL IS CLOSED!

STAY AT HOME

PROTECT THE NHS

save lives

Welcome to the third edition of our 'Home Learning Challenges' - designed to support parents/carers with the daunting task of home learning and entertaining our phenomenal pupils whilst our school is shut due to the COVID-19 pandemic! Every few days we will be posting a new set of five challenges, designed for pupils of all ages to enjoy! Thank you for your continued support!

Challenge 1 - Boggle Word Search!

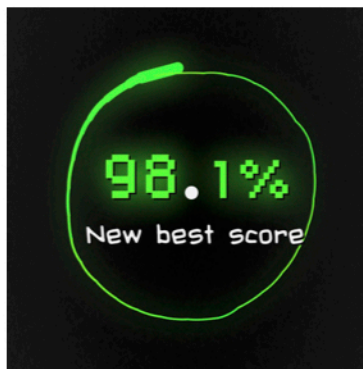

The rules are simple...You have to find as many words as possible on the grid. You can move from one letter to another if it is a neighbour (in all directions). You cannot use a letter more than once in a word. You get points for each word - a point per letter - the more letters the better! You have 60 seconds...on your marks, get set...GO! Why don't you share your best words with us? Additional grids have been posted on our Twitter for you to enjoy!

Beginning Monday 20th April 2020, BBC Bitesize will publish daily lessons for all ages. They'll also have a new dedicated TV channel full of learning content, podcasts on BBC Sounds and loads of educational videos of iPlayer.

Challenge 2 - Can you draw a perfect circle?

Visit www.vole.wtf/perfect-circle for an addictive online circle drawing game! Mr Leach's 97.9% is going to take some beating! Post your scores at @flomellynews This surely has some link to maths - doesn't it?? 😊😄

Challenge 3 - Build a Lego Model of a Famous Landmark!

Who doesn't like Lego? This next challenge is to build a famous Lego landmark and post a photo on our Twitter feed. Don't tell anyone what you have built, let them try and guess! Maybe you'll build the Taj Mahal, the Sydney Opera House or the Birkenhead Pyramids? We will post a few of our own!

Challenge 4 - Florence Melly Does Countdown!

The contestant with the longer word scores one point per letter, or 18 points if they have used all nine letters. If the words are identical, or of the same length, both contestants score. You can only use each letter once! Post your words on our Twitter feed! Also, have a go at the number challenge. Can reach the target number of 304? You can only use each number once. Show us your method! You have 30 seconds...Go!

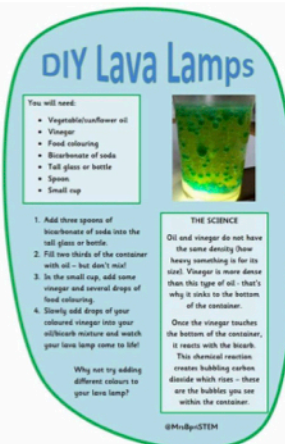

Challenge 5 - Make your very own Lava Lamp

In the last edition we directed you to a superb Twitter feed @MrsBpriSTEM who posts daily science experiments and activities for the whole family to enjoy. Well here's another one - making your very own DIY Lava Lamp out of items you may have in your cupboard! How exciting! Head over to our Twitter feed for the full instructions! Don't forget, make sure you post your final creations for us to enjoy!

TOP HOME LEARNING WEBSITE SUGGESTION!

To help support parents/carers with the somewhat daunting task of home learning - we will be scrolling the internet looking for amazing resources to help you and for our children to enjoy. Each edition we will be promoting an awesome website we have found and sharing it with you! This editions top site is...White Rose Maths (www.whiterosemaths.com/homelearning). The White Rose Maths Team has prepared a series of five maths lessons for each year group from EYFS to Year 8. Every lesson comes with a short video showing you clearly and simply how to help your child to complete the activity successfully. It is a fabulous site! Check it out!

Please follow us on Twitter!

Please send us photos and videos of your children completing these 'Home School Challenges'. We love to connect and interact with our parents and pupils - we miss you all so much!
