

Nursery's Daily Remote Learning

Monday 1<sup>st</sup> February 2021

## DAILY LITERACY ACTIVITIES

### Hook for a book!

What has happened in our nursery? Who has been here? When did they come here? Why do you think they have been here? How did they get here?

### Challenge

Can you record what you think has happened and your idea for the reason why it has happened?

## DAILY MATHS ACTIVITIES

### Collecting circles

Find objects around your homes that are **circles**. Draw around the circular objects then cut them out to produce 'circles.' Use your 'cut out circles' to make your very own 'circle' picture.

### Challenge

Talk with your adult what a circle shape looks like i.e. it is round, curved, no sharp points etc. How many circular objects have you collected altogether? Are your circles all the same size?

## THE WIDER CURRICULUM

### Messy Monday

Let's crack an egg! Have fun exploring cracking eggs in to a bowl. Feel their texture and talk about how they feel. i.e. slimy, gooey, hard, soft etc. What colours can you see? Can you find the yolk, the shell, the white of the egg? What food can you make using eggs?

### Challenge

What is the shell for around an egg? We know from our story that hens lay eggs. What other animals lay eggs? Do all eggs look the same? Find actual eggs or look at photographs of eggs on the internet and talk about how they look. Do they look the same as each other or do all eggs look different?

## LOOKING AFTER YOURSELF!

It's time to relax and meditate!

## GET CREATIVE!

### Hard boiled egg decorating

First, ask your adult to boil an egg for you. **Safety- Keep away from a boiling pan of water!**

Next, enjoy drawing, painting or gluing collage materials such as sequins, pom poms, buttons, glitter etc. on to your egg.

## RHYME TIME!

### Rhyme of the Week

Enjoy dancing and singing the rhyme, 'I'm a little teapot.'

## UP FOR THE CHALLENGE?

Make your very own bean bag to practice your throwing and catching skills! First, cut fabric into two **identical squares**. Next, use PVA glue to attach the three sides of the square together.

Then, pour lentils into the opened side of the square. Finally, glue the fabric on the opened side together and there you have your very own beanbag!
