

FLORENCE MELLY COMMUNITY PRIMARY SCHOOL

SCIENCE CUMULATIVE END GOALS – KS1

IF YOU CAN DREAM IT, YOU CAN DO IT!

	Biology Pupils develop an understanding of the concept of BIOLOGY through:	Physics Pupils develop an understanding of the concept of PHYSICS through:	Chemistry Pupils develop an understanding of the concept of CHEMISTRY through:
	Animals, including humans/Plants	Seasonal changes and daily weather	Everyday materials
Year 1	<ul style="list-style-type: none"> knowing and explaining what an animal is and what a plant is knowing and explaining how seasons influence plants and animals knowing and identifying the common features of fish, amphibians, reptiles, birds and mammals knowing, explaining and grouping animals by the types of food they eat knowing and explaining the places (habitats) that fish, amphibians, reptiles, birds and mammals live knowing and locating the main body parts of a human knowing the five senses and explaining how they help compare different textures, sounds and smells knowing and identifying the basic structure of plants and trees, such as roots, bulbs, stem, leaf, flower, fruits, trunk, branch and crown knowing and identifying the common names of wild and garden plants knowing and identifying explaining different trees in the locality, such as oak or Scots Pine knowing and explaining the difference between evergreen and deciduous trees, including the influence of seasons 	<ul style="list-style-type: none"> knowing and explaining the order of seasons knowing and explaining the changes within each season including months of the year knowing different patterns of weather and explaining, for example, how rain can occur in all seasons knowing that the earth rotates and explaining how day and night occurs 	<ul style="list-style-type: none"> knowing the properties of everyday materials, such as wood, plastic, glass, metal, water, and rock knowing and explaining the difference between an object and the material from which it is made, such as metal and a spoon knowing and explaining the properties of materials, such as hard / soft, stretchy, / stiff, rough / smooth, bendy / rigid, waterproof /not waterproof, absorbent / not absorbent, opaque / translucent / transparent knowing, explaining and grouping a range of everyday materials depending on their properties

FLORENCE MELLY COMMUNITY PRIMARY SCHOOL

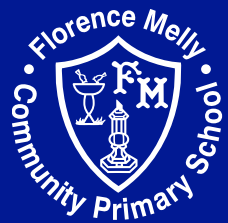

SCIENCE CUMULATIVE END GOALS – KS1

IF YOU CAN DREAM IT, YOU CAN DO IT!

	Biology Pupils develop an understanding of the concept of BIOLOGY through:	Physics Pupils develop an understanding of the concept of PHYSICS through:	Chemistry Pupils develop an understanding of the concept of CHEMISTRY through:
Year 2	Living things and their habitats/Animals, including humans/Plants <ul style="list-style-type: none"> knowing and explaining the common characteristic of living things, such as MRS GREN knowing and explaining the difference between things that are living, dead and things that have never been alive knowing and explaining what a habitat is and why plants and animals that live there are best suited to it knowing and identifying a variety of plants and animals in micro-habitats and habitats knowing and explaining what an animal is and how they get their food from other plants and animals knowing and explaining what a simple food chain is, including the direction of energy knowing and explaining that animals, including humans, have offspring which grow into adults knowing and explaining simple life cycles of animals, including humans knowing and explaining that animals need water, food and air to survive knowing and explaining that to be healthy, humans need to exercise, eat the right amounts of different types of food and keep clean knowing and explaining what conditions are needed for seeds to germinate and mature into plants knowing and explaining how bulbs grow knowing and explaining the conditions that plants need to thrive, grow, mature, and reproduce 	N/A	Uses of everyday Materials <ul style="list-style-type: none"> knowing and explaining what properties everyday materials have knowing, comparing and explaining the properties and suitability of everyday materials for particular uses, such as glass in windows or bricks for building – identifying what is suitable or unsuitable knowing and explaining how the shape of everyday materials can be changed, for example by squashing, bending, twisting and stretching explaining how significant scientists have made useful things from knowing about the properties of materials, such as Charles Macintosh

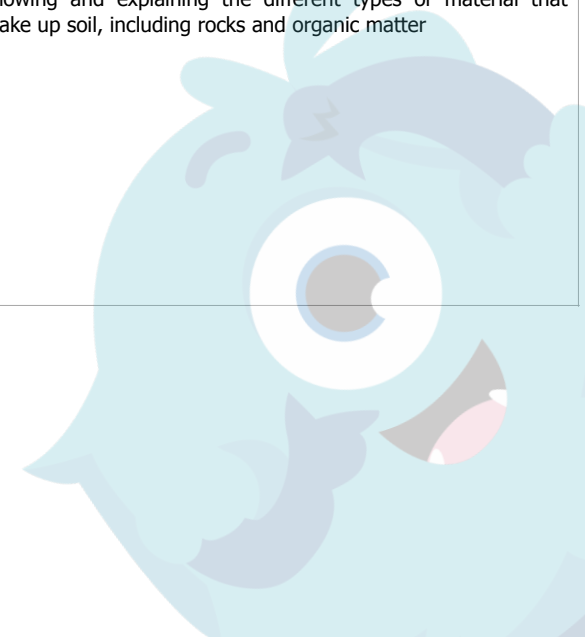

FLORENCE MELLY COMMUNITY PRIMARY SCHOOL

SCIENCE CUMULATIVE END GOALS – LKS2

IF YOU CAN DREAM IT, YOU CAN DO IT!

	Biology Pupils develop an understanding of the concept of BIOLOGY through:	Physics Pupils develop an understanding of the concept of PHYSICS through:	Chemistry Pupils develop an understanding of the concept of CHEMISTRY through:
	Animals, including humans/Plants	Forces and magnets/Lights	Rocks
Year 3	<ul style="list-style-type: none"> knowing and explaining that animals, including humans, need the right types and amounts of nutrition knowing and explaining that animals only get nutrition from the food they eat – they cannot make their own food like plants knowing, identifying and explaining the purpose and function of the human skeleton, such as supporting the body, protecting the lungs and helping joints move knowing, identifying and explaining the purpose and function of the muscles, such as skeletal, cardiac or smooth muscles knowing and explaining the difference between vertebrates and invertebrates knowing and identifying the structure of the different parts of flowering plants knowing and explaining the function of the parts of flowering plants knowing and explaining what plants need to live and grow, such as air, light, water, nutrients from soil and space to grow knowing how water is transported within plants and explaining the process of transpiration knowing and explaining the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal 	<ul style="list-style-type: none"> knowing how objects move on different surfaces using friction and resistance to explain why knowing and explaining the difference between contact and non-contact forces knowing and explaining how magnets attract and repel each other knowing and explaining how magnets attract some materials and not others using what they know about the properties of materials from KS1 to group everyday materials that are attracted to a magnet knowing and identifying magnetic materials knowing and explaining that a magnet has two poles, and predicting whether they will attract or repel each other knowing and explaining that light is needed to see things knowing and explaining that dark is the absence of light knowing and explaining that light is reflected from surfaces and enters our eyes knowing that the light of the sun can be dangerous and how to protect their eyes knowing and explaining that shadows are formed when light from a source is blocked by an opaque object knowing and explaining how shadows change size 	<ul style="list-style-type: none"> knowing and explaining that rocks can be grouped together on the basis of their appearance and properties knowing and explaining how rocks are formed knowing and explaining what a rock is and what is not a rock knowing and explaining different types of rock, such as igneous, sedimentary and metamorphic rock knowing and explaining how fossils of animals and plants are formed knowing and explaining the different types of fossils, including body and trace fossil knowing and explaining what soil is made from knowing and explaining the different types of material that make up soil, including rocks and organic matter

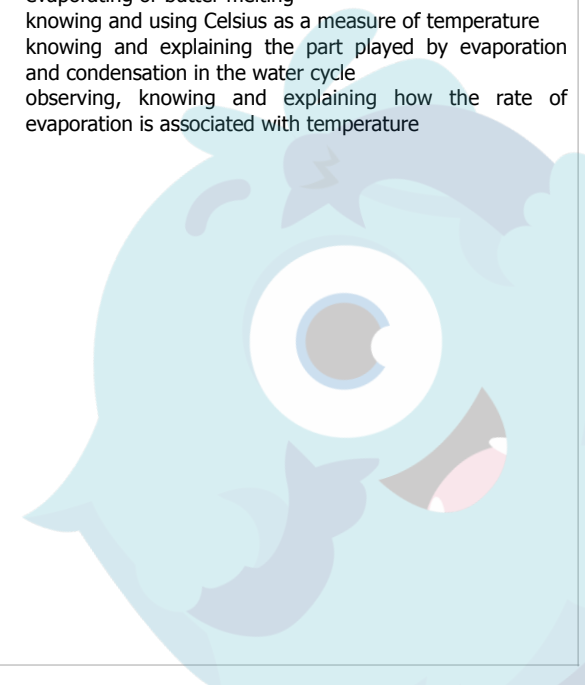

FLORENCE MELLY COMMUNITY PRIMARY SCHOOL

SCIENCE CUMULATIVE END GOALS – LKS2

IF YOU CAN DREAM IT, YOU CAN DO IT!

	<p>Biology</p> <p>Pupils develop an understanding of the concept of BIOLOGY through:</p>	<p>Physics</p> <p>Pupils develop an understanding of the concept of PHYSICS through:</p>	<p>Chemistry</p> <p>Pupils develop an understanding of the concept of CHEMISTRY through:</p>
	<p>Living things and their habitats/Animals, including humans</p> <ul style="list-style-type: none"> knowing and explaining that living things can be grouped in a variety of ways, such as vertebrate or invertebrate and flowering and non-flowering plants knowing, using and explaining the classification of vertebrates, such as fish, amphibians, reptiles, birds and mammals knowing, using and explaining the classification of invertebrates, such as snails and slugs, worms, spiders and insects knowing and use classification keys to group, identify and name a variety of living things in their local environment knowing and explaining the impact on living things if their habitat changes knowing and identifying the parts of the human digestive system, such as the mouth, tongue, teeth, oesophagus, stomach, small and large intestine knowing and explaining the functions of the parts of the human digestive system, such as the mouth, tongue, teeth, oesophagus, stomach, small and large intestine knowing and explaining the different teeth that carnivores and herbivores have and why this is important for their diet knowing, constructing and explaining food chains knowing and identifying producers, predators and prey in a food chain 	<p>Electricity/Sound</p> <ul style="list-style-type: none"> knowing and explaining that household appliances run on electricity from mains or batteries knowing, identifying and explaining what a simple single loop circuit is (also know as a simple series electrical circuit) knowing, identifying and explaining the component of a single loop circuit, such as cells, wires, bulbs, switches and buzzers knowing and explaining whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery knowing and explaining that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a single loop circuit knowing and identifying that some common conductors and insulators as well as associating metals with being good conductors. knowing and explaining that current is flow of electricity through a circuit knowing and explaining how sounds are made through vibrations and travel as waves knowing and explaining how sounds travel through a medium, such as a solid (wood), a liquid (water) or gas (air) knowing and explaining how sounds travel through a medium to the ear as vibrations knowing and explaining that sound is the transfer of energy knowing and explaining what pitch means – frequency of the sound wave knowing and explaining what loudness means – the size of the sound wave knowing, identifying and explaining patterns between the pitch of a sound and the features of the object that produced it, such as the length of an elastic band knowing, identifying and explaining patterns between the volume of a sound and the strength of the vibrations that produced it, such as the bang of a drum knowing and explaining that sounds get fainter as the distance from the sound source increases 	<p>States of matter</p> <ul style="list-style-type: none"> knowing and explaining what matter and state means being introduced to simple models that explain what particles are knowing and explaining the difference between solids, liquids and gases, such as solids hold their shape, liquids form a pool not a pile and gases escape from an unsealed container observing and knowing that some materials change state when they are heated or cooled, such as water evaporating or butter melting knowing and using Celsius as a measure of temperature knowing and explaining the part played by evaporation and condensation in the water cycle observing, knowing and explaining how the rate of evaporation is associated with temperature
<p>Year 4</p>
